WHY IS NETFLIX SO POPULAR?

Netflix is a trending and popular streaming service because of its access to high demand shows and movies. This service allows customers to watch award-winning content without any interruptions in high quality.

Netflix's popularity increases every day due to the many benefits that come with a paid membership. These perks include the ability to download TV shows and watch them without internet connection, free recommendations, no commercials or breaks, availability in over 190 countries, and streaming on a variety of devices. Because of these things, Netflix outranks many other major streaming services.

Viewers are never tired or bored of old content due to fresh rec-

ommendations and new shows and movies being added each month. Netflix also attracts customers by producing original shows and movies. For example, Netflix original *Stranger Things* blew up all over media with high ratings and views. Their originals can only be found within the service and nowhere else. Netflix is made with many categories and genres that are fit for everyone, from kids to adults.

Some trending shows on Netflix include *Breaking Bad*, *Vampire Diaries*, *The People v. O.J. Simpson: American Crime Story*, *Friends*, *The Magicians*, *Jessica Jones*, *Blacklist*, *Shameless*, and *The Office*. Trending movies include *Twilight*, *Finding Dory*, *The Impossible*, *London Has Fallen*, and *The Angry Bird Movie*.

JUNIOR VS SENIOR

"It really hasn't been much different academically. It's just surreal that all of this is almost over and everyone's moving on to college soon."

-Celina Jensen, 12

"It is very stressful worrying about grades for college, studying [for] and taking the SATs, and beginning to look for colleges."

-Claire Priestly, 11

The second semester of the school

year, for some, can be a wake up call, a reminder that deadlines are fast approaching and that there is still much left to do before the school year ends in June. However, for others it is a chance to relax, destress, and expand horizons. These differences are highlighted between high school juniors and seniors.

between high school juniors and seniors.

For juniors, after the first semester, time begins to speed up and students are reminded that they need to start to more realistically think about their future. They must take SATs/ACTs and AP exams, consider different college choices, and decide what they want to do with their life.

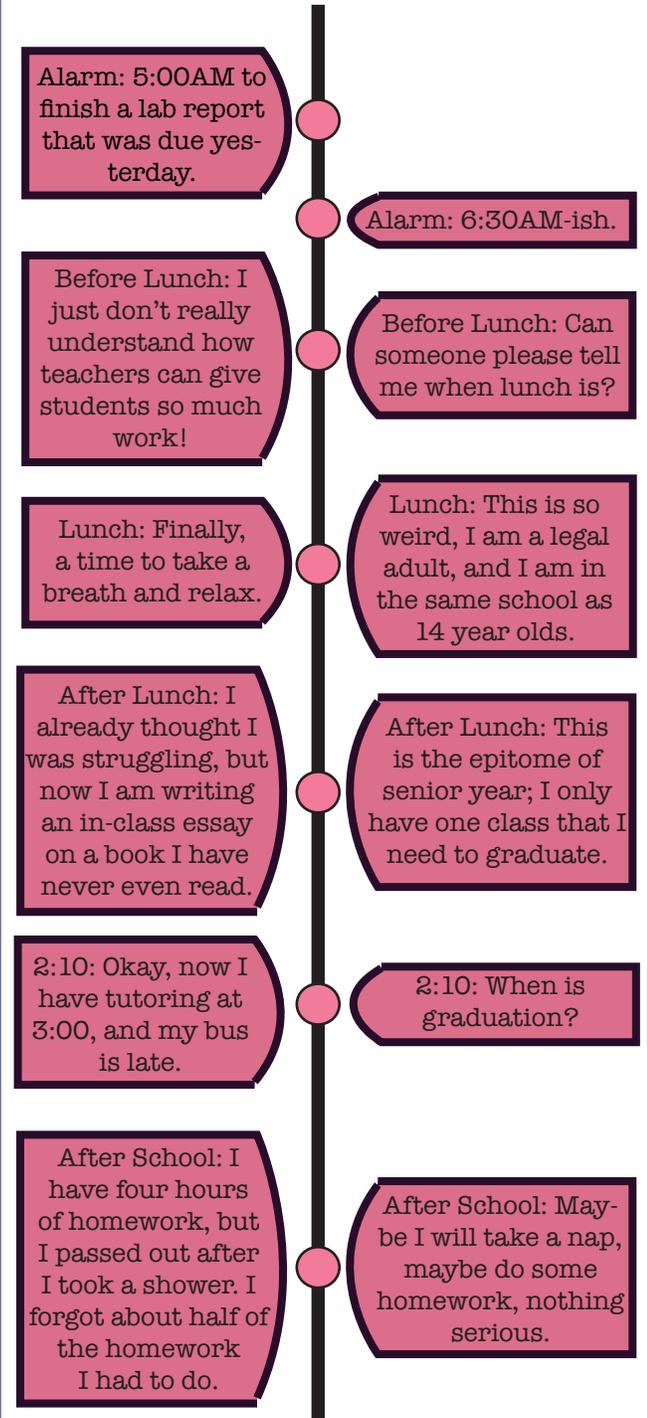

On the other hand, for second semester seniors, this time is a chance to relax, take a nap or two, choose a college, and hit the gym before their final summer at home.

With junior year and senior year only being one year apart, there are some similarities, but seemingly endless differences-the first of which being standardized testing for juniors. As juniors, students can be studying their SAT prep books, rushing to multiple tutoring appointments, scheduling test times, and praying that the score they receive will get them into their top college choice. Students study endlessly for a test that will be done within four hours. All this studying for a test that determines a student's college fate.

This stress is short lived however, because for seniors these months of testing stress are seemingly gone in the blink of an eye. Realistically, after the fall, most seniors will not be taking standardized tests. For seniors, the real stress is the college application dates looming overhead. They know how stressful it is for a number to determine a college acceptance. Most importantly, they know what it feels like to experience a world of stress at only sixteen.

As rising upperclassmen, juniors become introduced to what most every high schooler thinks will be the most incredible and fun-filled night of their life, prom. The juniors see prom as a magical experience only seen in movies, dramatized by the Disney Channel. However, the reality of prom is most times a shock for the newcomers. There is pressure to have a date, to buy an expensive outfit, and to have the event live up to the hype. Prom veterans, the seniors, know that prom is not all it's cracked up to be, and they know that pictures are what juniors should look forward to. Getting dressed up, feeling like a million bucks, and capturing the moment away from stress is the best part about prom. Knowing that one night doesn't define one's high school career, the seniors also know that it is important to enjoy every second left at Centennial. Four years may seem like eternity, but it's gone before one even knows it.

-Mevie Henderson

Athlete of the Month

Jasmine McCree

As a commit to Mount Saint Mary's College (Division 1) for soccer, Jasmine McCree is one of many talented athletes at Centennial High School. In addition to soccer, she plays basketball and runs track. McCree has been playing soccer for 9 years, basketball for 5 years and track for 3 years.

"Sports have been a huge force in my life because they teach me how to be a team player, build character, and teach me commitment," said McCree.

McCree hasn't only played these three sports in her life, as she played tennis in middle school. She continues to work on and off

the field by balancing her academics and her athletics, which she struggled with when she first started playing high school sports.

"I adjusted. After practice I start my homework as soon as I get home but on game days I try to complete some of my work at school; basically I really just have to manage my time wisely," she said. Time management was essential to

McCree because she knew that she would not be able to play high school sports if her grades slipped.

McCree suffered a back injury that caused

her to miss out on most of the 2016-2017 basketball season and made playing difficult. She continues

to recover and is starting up this year's track season.

McCree personally feels that she is better at soccer due to her accomplishments over the past few years, and she feels that she utilizes all of her abilities on the soccer field. "I enjoy playing soccer the most. It's the first sport I started to play and love. I never get tired of it and I'm so glad I can continue to play in college," she said.

This is McCree's last year at Centennial, and she is excited to finish up her high school athletic career with Centennial's track team.

-Kieran Senisi

PINNING THE COMPETITION

For the past nine years, the Centennial wrestling program has sent at least one wrestler every year to the State Finals at the University of Maryland. Since 2015, 4 Centennial wrestlers have been crowned State Champions for their respective weight classes.

These statistics are just one part of the growing legacy that is the Centennial Wrestling Program.

A program is built on the culture inside the gym. A team with an expectation for hard work, dedication, and discipline will go further than one with a lackadaisical, under-achieving culture.

The Centennial program is built off a desire to win and to be better.

“There [is] a core of guys that want to get better and are willing to work hard and make sacrifices to

do so,” varsity coach Cliff Kraisser said.

The team is more than just a group of people who share a common interest.

“We developed into a family, and you watch

out for each other inside and

outside

of the practice room,”

senior captain Amr

Narmouq said.

The team finished 5-6 in the county this year, with two state qualifiers and one State Champion, sophomore Jason Kraisser.

Narmouq attributes the

team’s success to the hard work put in during practice hours.

“When it’s time to be serious there is no messing around because whatever you do in the [practice]

room shows in your matches,” he said.

Coach Kraisser agreed that practices are important to a team’s success. “There is no standing around, the guys are constantly working. They leave practice exhausted,” he said.

In addition to the hard work of the wrestlers, a devoted coaching staff is priceless.

“I hope [people] can see through me that a first-year wrestler with [a] bad JV record freshman year can build and become a good wrestler under the coaches,” said Narmouq, a four year wrestler at Centennial.

Coach Kraisser hopes to continue the growth

of this successful program, encouraging his wrestlers to challenge their friends to give the sport a chance.

“It may be the hardest thing they’ve ever

done - it was for me - but I

guarantee

it will be

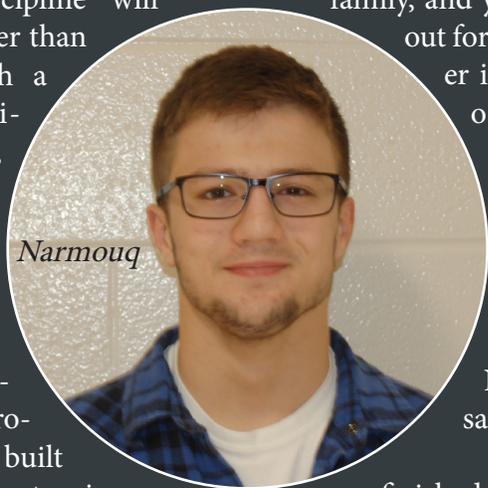

worth it,” he said.

On Friday, March 3, 2017, Centennial's Young Democrats held a TEDx event in the school's auditorium.

Nithya Raman, the committee chair for the event, found the inspiration to put on the event through her internship at Johns Hopkins.

"[Being] the president of Young Democrats, I thought that would be the best way to do this," said Raman.

The process for organizing Centennial's TEDx started at the end of the 2015-2016 school year.

"We applied for our license last June, and we got it later in the summer," shared Raman.

TEDx is independent from TED, but was created with the same concept in mind: "ideas worth spreading." The event featured Centennial upper-classmen giving speeches about innovative ideas that they have.

"We decided on speakers that passionately care about

issues in the community," shared committee leader Nikki Nacion.

The event consisted of nine speakers broken up by a 30-minute intermission where guests and speakers mingled in the cafeteria while enjoying food provided by the TEDx committee and a performance from Centennial's Jazz Band.

The theme of Centennial's event was "get schooled," which entailed speakers informing and

Jenna Baruch
"The Culture of Silence"

delivered a speech titled "A Culture of Silence" which talked about rape culture and how it has affected her life and her friends' lives, as well as the school environment around her.

"I [hoped] to inform the audience of how often this [sexual assault] is happening here, and try to open their eyes," commented Baruch.

"TEDx gives us the opportunity to instill a positive change in the Howard County community," commented Nacion.

While TEDx was a long and winding road for those involved, it was very successful, and the Young Democrats hope to host the event again next year, if not biannually.

"It's a long process, but it will definitely happen again," concluded Raman.

-Meghan Moore

Sidney Holt
"The Denial of Sincerity"

educating the audience on carefully researched ideas and concepts. By sharing these ideas, the speakers and the committee hoped to set forth a motion of change within the community.

Speeches touched on a plethora of subjects: the intelligence of chickens, how the internet affects sincerity, the necessity for interdisciplinary education, and much more.

When the name Zach Lederer is mentioned in the Centennial community, most think of a legacy.

Lederer was diagnosed with brain cancer at a very young age and fought hard to fight off the illness. Through his fight, support was endless,

taking pictures “Zaching.”

On March 11, 2014, Lederer lost his battle and passed at the young age of 20 years old. After Lederer’s

ment. The tournament has been going on at Centennial annually for two years now.

Before Lederer’s passing, Lederer sat down with two of his mentors, Chad Hollwedel and Robert Slopek, to discuss the idea of the tournament.

of a basketball tournament was the golden idea.

Slopek said that if Lederer was still here today, he would enjoy “just seeing people having fun, playing basketball, that’s Zach.” Lederer had the attitude of “not worrying about who’s winning and who’s losing, but just coming down, having a fun time, and engaging with other people. I think he would be thrilled,” said Slopek.

The tournament is still managed today by Slopek and Hollwedel. The tournament games, which are held in the main gymnasium, last eight minutes. The games are played during Eagle Time with a lively student section cheering the teams on.

-Zach Grossman

ZACHING AGAINST CANCER

especially from his family and friends.

Lederer did not let anything stop him from doing the things he loved. He was engaged within the school body in countless ways, such as managing the boys’ basketball and football teams at Centennial. After high school, Lederer managed the University of Maryland men’s basketball team.

During his freshman year in high school, Lederer was diagnosed with brain cancer for the second time in his life.

After a surgery to resect the brain tumor, Lederer asked his father to take a picture of him strongman posing to get the message out that he would not give up. Lederer’s picture instantly went viral, and people from everywhere began

passing, the support from his friends and family did not end; if anything, it was only the beginning.

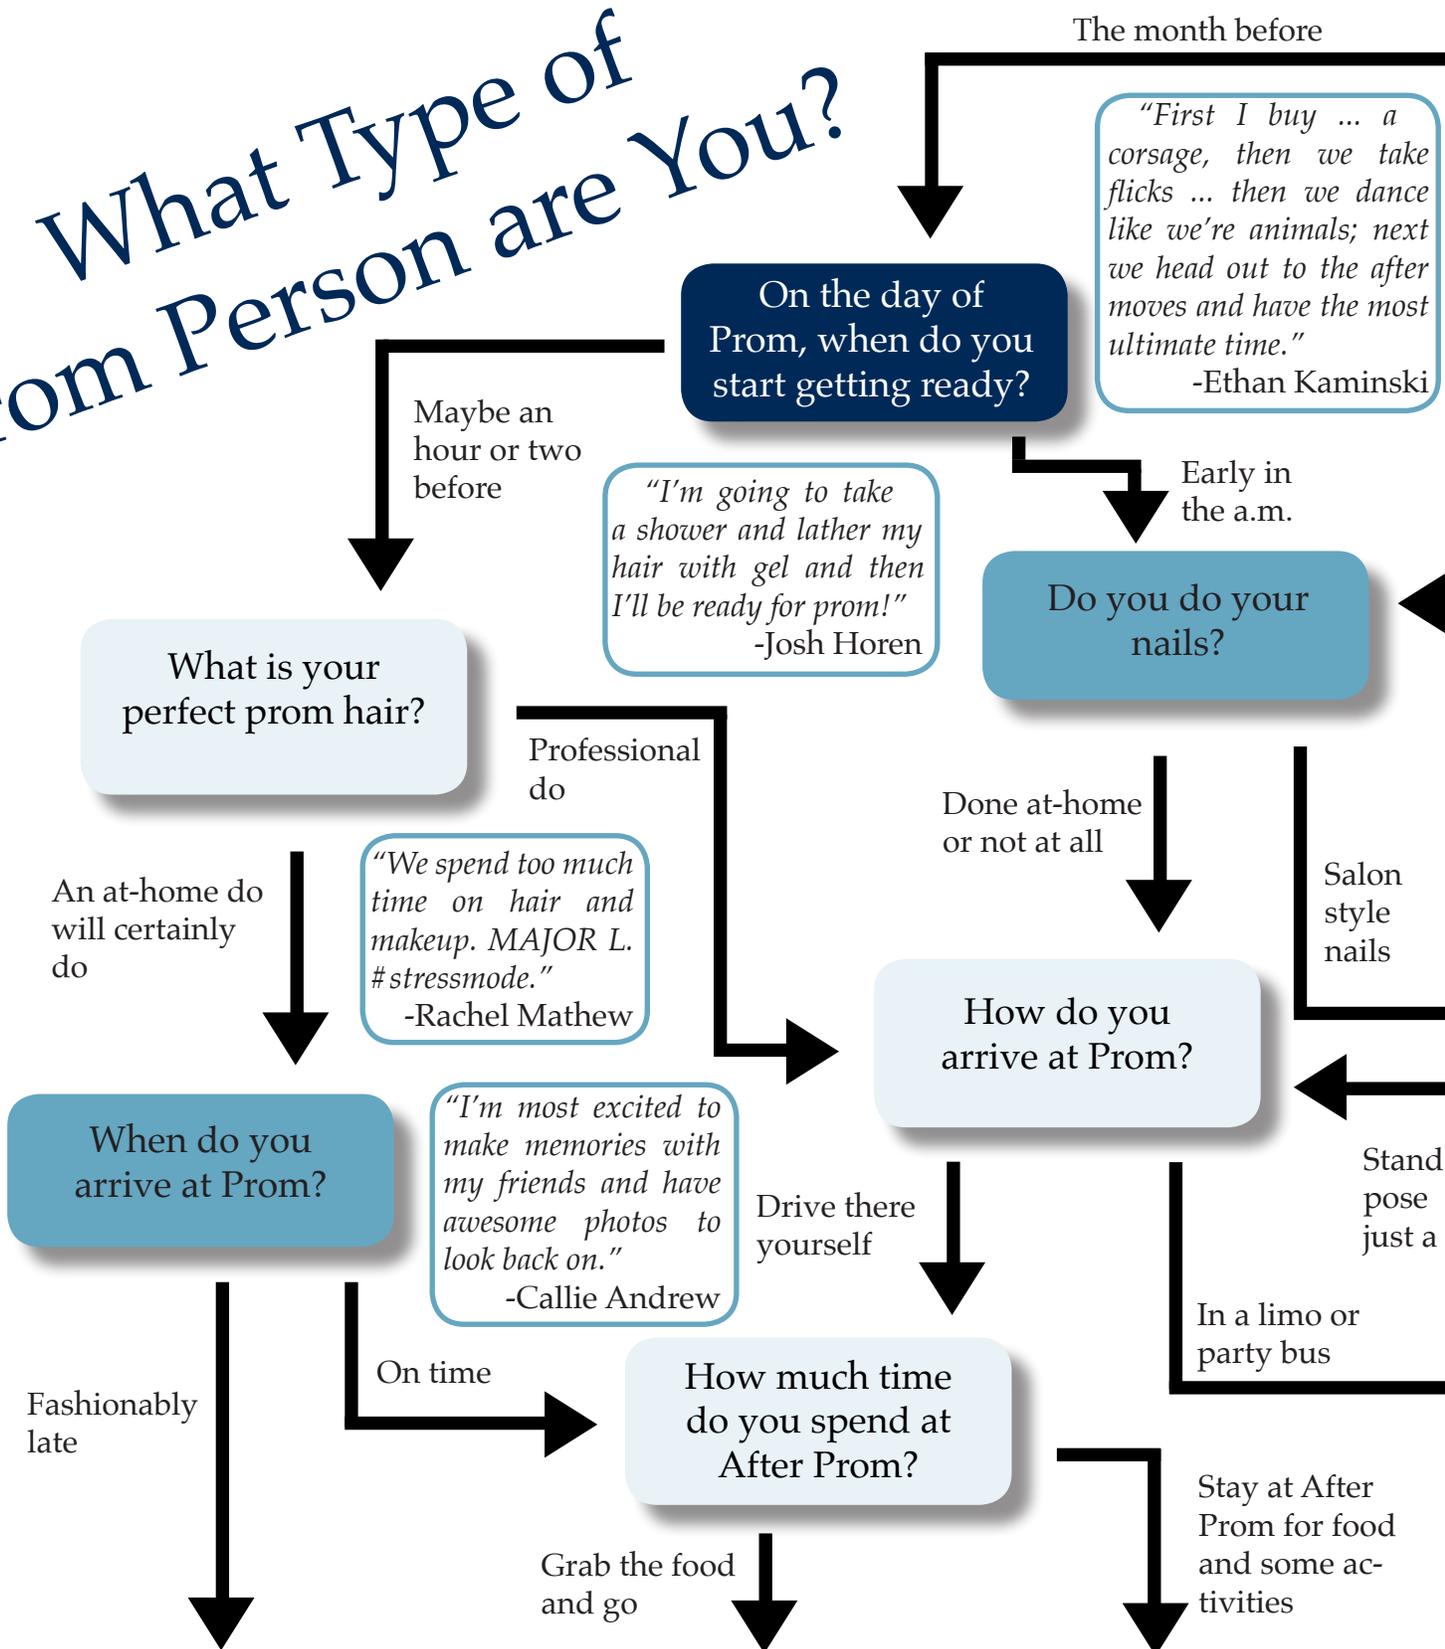

To this day, countless fundraisers and events are held in support of Lederer and others in similar situations. Some of these fundraisers/events include the Zaching Against Cancer 5K and the “Living the Dream” Gala.

Among these fundraisers, one of the most well known around the Centennial community is the Zaching Against Cancer 3 on 3 Basketball Tourna-

Slopek, now a health teacher at Centennial, and Hollwedel, boys’ varsity basketball coach, bonded with and supported Lederer through his lifelong fight and wanted to create something to honor Lederer. The three sat down together and created something “just for the students,” as Slopek said, and the idea

What Type of Prom Person are You?

Prom Person #1: What's the Big Deal?
 You just got your dress/tux a week ago and still aren't sure how you are getting to Prom, but that is alright. You might pose for a few pictures to make your parents happy, and then you will head to Prom. You plan to spend Prom chatting with your friends, rather than on the dance floor. After Prom is great for all of the food: Qdoba, Chick-fil-A, pizza, smoothies, and desserts all in one place. Once you eat as much food as you can, it is time to head out.

Prom Person #2: Why Prom sounds fun and you have a good...
 Prom sounds fun and you have a good... with. It may not be the most extrav... little late, but you all dress up and sh... dancing and some time chatting, and... The food is enticing and you're looki... prize wheel, use the photo booth, and...

When do you get your dress/rent your tuxedo?

BEGIN HERE

Months in advance

Does it need to be the perfect fit?

Alterations are a MUST

"All I have to do to get ready for prom is get dressed."
-Hudson Graves

Make at home or you don't get one

No alterations

How do you get the corsage/boutonniere?

"I would make sure that I buy my date a flower that matches her dress so we look good for pictures."
-Bobby Jones

Purchased at the flower shop

What is your shoe choice?

Wear what you have - you know it's comfortable

Buy a brand new, perfect pair

How do you arrive at Prom?

"My friends and I will get a party bus ... and we will bring speakers and have a great time."
-Kayla Roddy

Drive there yourself

In a limo or party bus

How many photos do you take?

and for few

A million - so many poses to try

How much time do you spend at After Prom?

Stay at After Prom for food and some activities

Stay until closing to do as much as you can

Why Not Go? It'll Be Fun!
A good group of friends to spend the night and you may be a low out. You spend some time at Prom and eventually you head to After Prom. You go to play the cash machine, spin the wheel and watch the movie.

Prom Person #3: Prom, Prom, and More Prom
You have been looking forward to Prom and After Prom all year, and it is finally here! You spend your whole day getting ready because simply put: you have to look perfect. You arrive to Prom in style and stay on the dance floor the whole night. At After Prom, after consuming endless amounts of food, you bounce around from place to place to do as much as you can in the time allowed. You can't miss out on the casino games, inflatables, virtual roller coaster, and raffle prizes.

April Fools

Speculation exists around how April Fools' Day came to be, but most people agree that the fun holiday has been celebrated for centuries. It was first popularized in England in the early eighteenth century, but had been celebrated in one way or another for hundreds of years before 1700. As to why the day of comedy occurs on April 1? Nobody knows for sure.

In Scotland, April Fools' Day eventually came to be known as Hunt-the-Gowk Day. The term "gowk" means fool. People sent chain mail postal letters to friends on April 1 and pinned "kick me" signs on the backs of friends on April 2.

France adopted a similar tradition; students put pictures of fish on schoolmates' backs, possibly reflective of the zodiac symbol Pisces because of its close proximity in date to

April 1.

Over time, pranks have gotten sillier in nature. In 1957, BBC reported that spaghetti had been harvested from Swiss trees, and created a video that seemed to prove it.

Centennial High School students have pulled a few pranks of their own. Senior Jennifer Ahn pretended to have a nosebleed by inhaling ketchup, even though she is allergic to the condiment. Junior Sam Mora once walked around her neighborhood with a clown mask and followed neighbors.

Some jokes have evolved to evoke fear. When he was in sixth grade,

which it was announced that Richard Nixon would run for president again. The host of the show did not reveal that the message was a prank until the end of the show.

Other pranks have targeted the gullible. Ximena Diaz, a sophomore, "fooled my friend into thinking I had bought Beyoncé tickets

freshman Shawn Kruhm convinced his sister to call their mom at work to tell her that he had broken his arm playing football. His mother returned home to find Kruhm and his sister laughing on the couch.

In 1992, NPR aired a show during

for the both of us but ended up giving her a piece of paper that said 'April Fools!'"

Duolingo.com, a language-learning website, debuted a new pillow last year that would supposedly teach people a new language overnight. In 1996, Taco Bell created an advertisement that announced it had bought the Liberty Bell, and that the historic monument would now be called the Taco Liberty Bell.

Whether fun, downright ridiculous, or even infuriating, April Fools' Day reminds us all to laugh every once in awhile, and once a year, to remain suspicious of everything and everyone.

-Caroline Chu

A short history of pranks and jests

! Spring Break !

With only one snow day in the 2016-2017 school year and a very short Winter Break, Centennial's students are more than excited for Spring Break. Students will be dismissed from school three hours early on April 7 and will return on April 17, making the vacation ten days long. Here are some fun ideas to have a great time on Spring Break and various items to pack to make the best trip.

Packing List

- Sunblock and hats to protect skin from the sun's harmful UV rays
- Cameras to capture and save moments with friends and family
- Snacks (granola bars, chips, etc) to stay satisfied without spending money
- Portable chargers to stay connected without worrying about running out of battery
- Aloe Vera to heal nasty sunburns
- Deck of cards and games to stay entertained while traveling
- Pain relievers, medicine, and a first aid kit in case of emergencies
- Towels to dry off after water activities
- Headphones to listen to music
- Umbrella in case of rain
- Clothes based on destination's weather
